

## **Organization for Defending Victims of Violence**

### **Item 3: General Debate**

#### **Mr. President**

Israel's June aggression against Iran comes with deeply painful statistics: over 1,000 killed, 6,000 injured, including a large number of young men, women, and children mostly civilians, followed by coordinated U.S. strikes on Iran's nuclear facilities.

A few months later, the unlawful unilateral sanctions against Iran were intensified. Weaponization of dollar added to the pressure of an economic war<sup>1</sup> which was ongoing for decades. This was accompanied by the presence of Mossad agents and in the streets of Iran cities<sup>2</sup>, supportive tweets encouraging their actions, disruption of peaceful protests and orchestration of deaths—inflicting grief and loss on thousands of Iranian men and women, and etching fresh wounds into the hearts of us, the people of Iran.

#### **Mr. President,**

The violations of human rights and humanitarian law committed by the US and Israel in Palestine, Venezuela, and Iran in one year, in a massive scale cannot be addressed in the limited time allocated to Oral statements of GD 3. Yet a question lingers in our mind: How long must the UN system endure the US unilateralism, exceptionalism, unilateral withdrawal from UN bodies and Israel's continued defiance of the UN decisions and resolutions?
